 Portfolio

 Marrakech

Cybersecurity Engineer specialized in DevSecOps, SOC, and cloud security. Experience in secure infrastructure design, deployment automation, SIEM integration, and system monitoring. Interested in cybersecurity research and automated threat detection approaches.

EDUCATION

Engineering Degree – Cyber Defense & Embedded Telecommunication Systems	2023 - 2026
National School of Applied Sciences (ENSA) – Marrakech	
Preparatory Cycle for Engineering Studies	2021 - 2023
National School of Applied Sciences (ENSA) – Marrakech	
High School Diploma in Physical Sciences	2021
• Sidi Mohamed Ben Abdellah High School – Tinghir	

PROFESSIONAL EXPERIENCE

- **ERP–Procurement Platform Integration Simulation** - UM6P | March 2026 - Present | PFE
Designed two FastAPI services simulating an ERP and a procurement platform, with API/webhook-based synchronization, Keycloak security, and ELK monitoring.
- **Online Ticketing Platform Development** - AB SEC | July – August 2025 | PFA Internship
Designed and developed an online ticketing application based on a microservices architecture.
- **Hybrid SOC Implementation** - IMS Technology | July – August 2025 | Internship
Designed a hybrid SOC architecture integrating pfSense firewall, Suricata as an IDS/IPS, and Wazuh for security monitoring.

PROJECTS

- **Securing and Automating a Kubernetes Infrastructure**
Automated deployment of a Kubernetes infrastructure using Terraform and Ansible, implementation of a GitOps pipeline, and correlation of metrics and logs for anomaly detection using Prometheus, Loki, and Grafana.
- **DevSecOps Web Platform for Sports Events**
Developed a CI pipeline with Jenkins, integrating build, testing (SAST/DAST), and continuous deployment within an automated and secure environment.
- **Cloud-Native SIEM and Threat Intelligence on AWS**
Implemented an automated AWS-based SIEM connecting GuardDuty to a containerized SOC (TheHive, Cortex, Elasticsearch, and MISP) using Docker Compose.

CERTIFICATES

- AWS Cloud Practitioner Essentials | AWS Training & Certification – 2025
- Certified in Cybersecurity (CC) by ISC2 – 2025

EXTRACURRICULAR ACTIVITIES

- Participated in cybersecurity Capture the Flag (CTF) competitions.
- Treasurer (2024–2025) of the Cybersecurity Department Club.

SOFT SKILLS

- Teamwork
- Time Management
- Attention to Detail
- Adaptability
